

Andrej Simeonov

andrej@pud.ca (416)526-0186 108 Gothic Ave, Toronto, ON M6P 2V9

A consummate perfectionist with almost 15 years experience honing the craft of interface development, web standards & accessibility, and creating beautiful websites from the ground up.

EXPERIENCE

ROLE(S)	JOB DESCRIPTION	TIME LINE
BLAST RADIUS Sr. Interface Developer	As part of my ongoing contract with Blast Radius, I was tasked to be one of the lead developers and client contacts for a large communications company based out of the United States. Aside from the usual HTML, CSS, and advanced Javascript requirements, I travelled to Atlanta, GA to work on site for the client and review deliverables directly with the client. Continuing my journey at Blast, I joined the interface team responsible for handling a variety of Microsoft.com marketing initiatives.	Jan 2009 - Present
TRANSMITTER STUDIOS Sr. Interface Developer Project Manager Designer	A fast-paced environment catering to small & medium business clients primarily in the creative arts industry. My responsibilities included daily deliverables, client relations, production and business management. Additionally developed and maintained all in-house assets which facilitated development and services to our clients including Content Management Systems and Asset Collaboration tools.	Jan 2008 - Dec 2008
PUD.ca Owner, Operator	Pud.ca is the loving "store front" for my freelance clients. In its run of almost 10 years, I have created strategic partnerships and developed countless sites for a large variety of clientele. Providing production services directly for smaller web design agencies such as Totomedia.com, TransmitterStudios.com, Hexabomb.com, my primary responsibility was to deliver at all costs, often hiring and managing freelancers with varied skillsets to achieve end results.	June 1999 - Present
CYBERPLEX Sr. Interface Developer Project Manager	Initially hired as an Interface Developer by Webaffairs, we were shortly there-after bought by Cyberplex and I got an opportunity to quickly move up the ladder. Within 2 months, as a project manager, I was responsible for upwards of 75 on-going projects, in addition to maintaining my Interface Development deliverables.	Feb 2002 - Nov 2002
Physiotools Ltd. Web Designer I.T. Manager	Configured and maintained office intranet as well as communications and automatic file repositories with the head office in Finland. In addition to the IT implementations I was tasked to develop and maintain custom e-commerce and database solutions as well as design numerous marketing materials both on-line and print.	Nov 1999 - June 2001
Trends Net Jr. Web Designer	As my first foray into the industry, working for this small Internet Service Provider gave me an opportunity to learn basic web design and content management skills dealing directly with a variety of small businesses.	Sep 1996 - Feb 1999
